Experience

Mr. Shaw has over four years experience in the fields of civil engineering and land surveying. Responsible for design engineering, project management, contract administration and development.

Responsibilities include:

- Preliminary Engineering and Feasibility Reports
- Project design and management
- Engineering design of: wastewater treatment and collection systems; potable water treatment, storage and distribution; site design; storm water; wood, steel and concrete structures.
- GIS infrastructure mapping development
- Environmental and construction permitting
- Computer modeling of waster/wastewater and structural systems

Types of projects successfully completed include:

- Wastewater treatment/collection system investigations, analysis and design
- Wastewater treatment design and plan development
- Structural design (wood, steel, concrete)
- Storm water drainage investigations, analysis, design and modeling
- Water distribution systems investigations, analysis, design and modeling
- Dam failure investigation and mitigation
- Hydrologic and Hydraulic analysis of dam spillway systems
- Site planning and development

Education

MEng. Civil Engineering, 2016, University of Louisville, Speed School of Engineering, Louisville, Kentucky

B.S. Civil Engineering, 2015, University of Louisville, Speed School of Engineering, Louisville, Kentucky

B.A. Geology, 2008, Hanover College, Hanover, Indiana

Professional License

Engineer-in-Training	Kentucky	No. 15259
